

ABOUT ME

Sun scientist, world traveler, rock collector, aurora chaser, stargazer. Whether greeting visitors at the National Parks or cruising through the Norwegian Arctic, I enjoy spreading the beauty of solar science everywhere I go!

ROBINSON

HELIOPHYSICS  OUTREACH

CAREER

SETI INSTITUTE

Director of Education

2026 - Present

Director of Outreach - NASA's Multi-slit Solar Explorer

2024 - Present

These directorships allow me to leverage my science communication skills, creative vision, and network to develop products and activities to support NASA missions, the SETI Institute, Boys & Girls Clubs, and our domestic and international partners.

OUTREACH

HX EXPEDITIONS

Guest Scientist / Expedition Team

2021 - Present

Partnering with expedition ships allows me to bring real, tangible scientific experiences to Arctic explorers. I excel at making tough science concepts accessible to everyone, and I enjoy helping folks develop a sense of STEM identity, science literacy, and science relevance.

EDUCATION

PHD THEORETICAL ASTROPHYSICS - SOLAR PHYSICS

Roseland Centre for Solar Physics
University of Oslo 2023

MS GEOPHYSICS - GLACIOLOGY

University of Iceland 2018

BS PHYSICS & BS ASTROPHYSICS

Michigan State University 2013
